

## Trip Checklist

### Checklist of things you must do if going on a Kenya expedition:

- **Immediate action:** Expedition application with signed waiver and release form and \$500 deposit. If you are under 18, both parents or legal guardian must sign this form. Mail deposit and application to Koins for Kenya, 252 N. Preston Dr., Alpine, UT 84004.
- **Immediate action:** Apply for a passport. If you already have a passport, it must be valid for a month after your return date. As soon as you have your passport number, send it to [ingcvt@yahoo.com](mailto:ingcvt@yahoo.com) along with passport expiration date and date of birth for the emergency medical and evacuation insurance.
- **Immediate action:** Make sure you are current on all your childhood immunizations; we recommend the following for your trip to Kenya: Hepatitis A and B, typhoid, tetanus, yellow fever, and a polio booster if you are over 18 and haven't had one since you were a child. Also, get a prescription for an anti-malarial medication from your doctor. Check with your doctor or local clinic for most current information on required immunizations.
- **6 weeks before departure:** Make a second payment in the amount of \$2,000 to Koins for Kenya.
- **Approximately a month before the departure date:** Bret will arrange a conference call where all expedition members can be updated on the latest travel information, tips for packing and preparing for the expedition. Information on conference call will come by email. Make sure we have a valid email address for you.
- **3 weeks before departure:** Pay remaining balance due for your trip.
- **2 weeks before departure:** Begin packing. Verify all required personal information has been sent to Koins.
- **1 week before departure:** Check your email daily for any updates or travel schedule changes.
- At any time you may call or email with questions.
